<sup>\*</sup> Data from larger classes were combined to prevent the disclosure of confidential information.

NOTE: An employer unit may include more than one worksite. For example, a retail company with five stores would be counted for each store under reporting units, but only once under employer units at the primary location. Thus, employer units tend to consolidate employment in Honolulu County and in larger size classes. Conversely, neighbor island employment will be less because the majority of primary locations are on Oahu.
